---

## PROFESSIONAL EXPERIENCE

### Software Developer (Freelance)

*TechieBaker | Dec 2023 – Present*

Built and managed multiple projects under the TechieBaker brand, focusing on innovative, real-time, and responsive web solutions.

- **Thryb** – Built a real-time social platform using **Next.js**, **Tailwind CSS**, and **WebSockets**, supporting live chat and content updates.
- **Blinkav** – Developed the official company website for Blinkav, a smart automation and IoT solutions company, optimizing for consultation booking and customer inquiries.
- **Isaac Akinyemi Portfolio** – Developed and deployed a personal portfolio highlighting professional achievements and case studies with strong UI/UX consistency.
- **Personal Portfolio** – Built a performant, fully responsive portfolio site showcasing projects, case studies, and interactive elements with Next.js and Framer Motion.
- Oversaw end-to-end development including architecture planning, design integration, and optimization for performance and SEO.

## **Frontend Developer (Contract)**

*Yoh Communications LLC | Dec 2024 – May 2025*

- Led frontend development of Thryb, a real-time social platform, using Next.js, Tailwind CSS, and WebSockets to support live chat and content updates.
- Reduced API response times and page load latency by 15% through intelligent caching and TanStack Query optimization.
- Delivered AI-powered chat UI enabling real-time interaction with an AI assistant, improving user engagement on support queries by 40%.
- Transformed 80% of Figma-based UI/UX designs into responsive, production-ready code, leading to a 25% increase in user engagement.

## **Full Stack Developer Intern**

*Kaizer Channel | Jul 2024 – Dec 2024*

- Developed a full-stack medical consultation platform integrating real-time patient data, provider dashboards, and scheduling.
  - Built responsive user interfaces using React.js and TailwindCSS and developed REST APIs with Express and TypeScript.
  - Enabled real-time updates and data flow between medical facilities, improving appointment coordination by 30%.
- 

## **EDUCATION**

### **Frontend Development – Tech4Dev Women Techsters Fellowship**

- Focused on web development fundamentals, responsive design, and JavaScript frameworks.

### **Backend Development – ALX Software Engineering Program**

- Covered backend architecture, API development, internationalization, databases, and cloud deployment
